

Customer Retention in the Digital Economy

Customer retention is mission-critical for businesses today. As industries undergo digital transformation and disruption, the challenge to build lasting relationships and long-term recurring revenue streams has never been more challenging. In a global survey of 165 executives, a majority of respondents identified customer retention as central to the success of their business.

THE RETENTION CHALLENGE

55% of surveyed executives ranked their customer retention capabilities as moderate or weak.

"Executives see customer retention as the most important stage in the customer journey in achieving the long-term success of their company's marketing and business strategy."

- The Economist Intelligence Unit

Why is it so difficult to generate repeat business?

Customers are not aware of all the products and services offered

40 %

Customers are looking for lower prices and better deals

34 %

Customers expect to be rewarded for repeated purchases

24 %

What is the competition doing to make retention so hard?

Aggressive price undercutting

44 %

New market entrants stealing attention

34 %

Product and service bundling

22 %

Businesses need new strategies to monetize and differentiate their digital and physical offerings to secure customer loyalty.

"The challenge is about connecting with customers and constantly inventing new, better business models to meet their needs and serve them better."

- The Economist Intelligence Unit

THE NEW MODELS TO RETAIN AND DRIVE REPEAT BUSINESS

"Some of the most innovative brands use technology to break pricing down to the units. These slices and slivers were not possible in the past, but now they create new value for customers."

- Lucas Watson, Chief Marketing and Sales Officer, Intuit

64 %

of executives say product bundling is a highly effective way to drive repeat business.

45 %

view cross-selling as useful for customer retention.

57 %

believe discounting or reward points are solid strategies for encouraging additional purchases.

THE SUBSCRIPTION SOLUTION

Many innovative companies deploy subscription services to promote retention and repeat business while meeting their customers' needs for flexible on-demand purchasing models.

80 %

of businesses say they see changes in how their customers prefer to access goods and services.

40 %

of businesses already say subscription is being added to their business model.

56 %

of enterprises will have shifted to a subscription economy model in 2017.

Subscription Commerce in Action

Builds long-term relationships

Secures recurring revenue streams
